

Don Carlos Lummis:

Dear Sir:-

I note by the "Times" that you have made a collection of the old songs of California and have now put them in book form.

Being a great admirer of all things, especially the music of the early California days, I am writing you hoping that I may possess one of your books of songs. If there are any charges for same, kindly send it C.O.D. by mail as quickly as possible, or let me know where I can procure the book.

Very sincerely yours.

The enclosed circular gives you the information. The astonishing advance sale promises that next year I shall be able to bring out the "Second Book" with 12 or 14 more songs.
